World Development Indicators - Data Dictionary

1. Source & Staging Overview

Item	Description
Staging Table Name	wdi_indicators
Target Database	DevelopmentDB
Purpose	Stores annual World Development Indicators for selected European countries and the European Union.
Total Rows	**11,371**
Distinct Entities	**16 Entities** (15 European Countries + EUU European Union)
Distinct Indicators	**17 Development Metrics**
Overall Year Span	**1960–2025** (66 distinct years)
Unit of Observation	Entity–Indicator–Year
Primary Key	Composite: (country_iso3, indicator_code, year)
Audit Tracking	loaded_at TIMESTAMP DEFAULT CURRENT_TIMESTAMP

The table has a common global span of 1960–2025, but individual indicators and entities have different first years, final years, and degrees of completeness.

2. Table Schema & Column Specifications

Column Name	MySQL Data Type	Key Type	Nullable	Description
country_iso3	CHAR(3)	**PK**	NOT NULL	Standard 3-letter ISO code or entity aggregate
country_name	VARCHAR(50)	—	NOT NULL	Full country or entity name
indicator_code	VARCHAR(30)	**PK**	NOT NULL	World Bank / WDI indicator code
indicator_name	VARCHAR(100)	—	NOT NULL	Full metric description
year	INT	**PK**	NOT NULL	Observation year (1960–2025)
value	DECIMAL(24,6)	—	NOT NULL	Numerical value of the metric
loaded_at	TIMESTAMP	—	NOT NULL	Ingestion audit timestamp (auto-populated by MySQL)

3. Indicator Catalog & Target Dimension Mapping

Indicator Code	Indicator Description	Unit
NE.EXP.GNFS.ZS	Exports of goods and services	% of GDP
NE.IMP.GNFS.ZS	Imports of goods and services	% of GDP

NV.AGR.TOTL.CD	Agriculture, forestry & fishing value added	Current US$
NV.AGR.TOTL.ZS	Agriculture value added	% of GDP
NV.IND.MANF.CD	Manufacturing value added	Current US$
NV.IND.MANF.ZS	Manufacturing value added	% of GDP
NV.IND.TOTL.CD	Industry including construction value added	Current US$
NV.IND.TOTL.ZS	Industry value added	% of GDP
NV.SRV.TOTL.CD	Services value added	Current US$
NV.SRV.TOTL.ZS	Services value added	% of GDP
NY.GDP.MKTP.KD.ZG	Annual GDP growth	Annual %
NY.GNP.PCAP.CD	GNI per capita (Atlas method)	Current US$
SL.AGR.EMPL.ZS	Employment in agriculture	% of total employment
SL.IND.EMPL.ZS	Employment in industry	% of total employment
SL.SRV.EMPL.ZS	Employment in services	% of total employment
SP.DYN.LE00.IN	Life expectancy at birth	Years
SP.URB.TOTL.IN.ZS	Urban population share	% of total population

4. Temporal Coverage by Indicator Group

Indicator Group / Code	First Year	Last Year	Distinct Years	Total Rows	Expected vs. Actual Coverage
Exports (NE.EXP.GNFS.ZS)	1960	2025	66	757	Sparse historical coverage before 1970
Imports (NE.IMP.GNFS.ZS)	1960	2025	66	757	Sparse historical coverage before 1970
Sector Value-Added (Agri, Manf, Ind, Srv)	1960	2025	66	~550 each	Gaps in early decade observations
Annual GDP Growth (NY.GDP.MKTP.KD.ZG)	1961	2025	65	860	120 negative growth observations present
GNI per Capita (NY.GNP.PCAP.CD)	1962	2025	64	823	Begins in 1962
Employment Shares (Agri, Ind, Srv)	1991	2025	35	560 each	**100% Complete panel** (16 × 35) over 1991–2025
Life Expectancy (SP.DYN.LE00.IN)	1960	2024	65	1,040	**100% Complete panel** (16 × 65) over 1960–2024
Urban Population (SP.URB.TOTL.IN.ZS	1960	2025	66	1,056	**100% Complete panel** (16 × 66) over 1960–2025

5. Entity-Level Observations (1960–2025)

Entity Name	ISO3	Nominal Span	Total Observations
Belgium	BEL	1960–2025	725
Czechia	CZE	1960–2025	641

Germany	DEU	1960–2025	757
Spain	ESP	1960–2025	725
Estonia	EST	1960–2025	616
European Union	EUU	1960–2025	749
France	FRA	1960–2025	1,025
Greece	GRC	1960–2025	745
Hungary	HUN	1960–2025	675
Ireland	IRL	1960–2025	725
Italy	ITA	1960–2025	765
Lithuania	LTU	1960–2025	610
Latvia	LVA	1960–2025	610
Poland	POL	1960–2025	615
Portugal	PRT	1960–2025	725
Romania	ROU	1960–2025	663

6. Data Quality and Limitations

Completeness

- All the fields are fully populated. However, the row counts reveal coverage gaps within several indicator series.

Missing and uneven coverage

- The WDI data does not provide a uniform historical panel across all indicators. The main limitations are: (i) GDP growth starts in 1961 rather than 1960. (ii) GNI per capita starts in 1962. (iii) Employment indicators only begin in 1991. (iv) Life

expectancy ends in 2024, one year before the end of the overall dataset. (v) Sector indicators have substantially less complete historical coverage than the broader economic and social indicators. (vi) Some countries have later observations for particular indicators.

Negative Values

- The dataset contains 120 negative GDP-growth observations. These are valid values because negative annual GDP growth is economically possible and represents contraction.
